

AFRICAN INSTITUTION FOR

PERFORMANCE EVALUATION & DIGITAL SYSTEMS

Benchmarking, evidence and web-based
systems for stronger institutions across Africa.

PSCOPE strengthens institutions through evidence and comparison

PSCOPE Africa is a private African institution providing expertise in performance evaluation, benchmarking and web-based performance systems — helping organisations turn evidence into accountability, learning and institutional improvement.

WHAT WE ENABLE

- | | | | |
|-----------|------------------------|-----------|----------------------|
| 01 | Clear results | 02 | Credible evidence |
| 03 | Comparable performance | 04 | Targeted improvement |

OUR PURPOSE

**Make performance
visible — and
improvement
actionable.**

CONTINENTAL PERSPECTIVE

Built on more than a decade of AU-level expertise in country performance reporting, scorecards and accountability systems.

A complete performance-management offer

From strategy and programme design to evaluation, learning and institutional change.

01

STRATEGY & MANAGEMENT

Strategic planning, results architecture, governance and management advisory.

02

PROGRAMME FORMULATION

Programme design, investment cases, resource mobilisation and fundraising support.

03

SURVEYS & EVALUATION

Baseline and endline surveys, impact assessments and independent external evaluations.

04

BENCHMARKING & SCORECARDS

Scoring methodologies, comparative analysis and performance dashboards.

05

TRAINING & CAPACITY DEVELOPMENT

Tailored training, coaching, peer learning and practical institutional capacity development.

06

DIGITAL PERFORMANCE SYSTEMS

Integrated databases and web applications for planning, budgeting, MEL, reporting and staff performance.

Independent evidence strengthens decisions, accountability and learning

SURVEYS, IMPACT & EXTERNAL EVALUATION

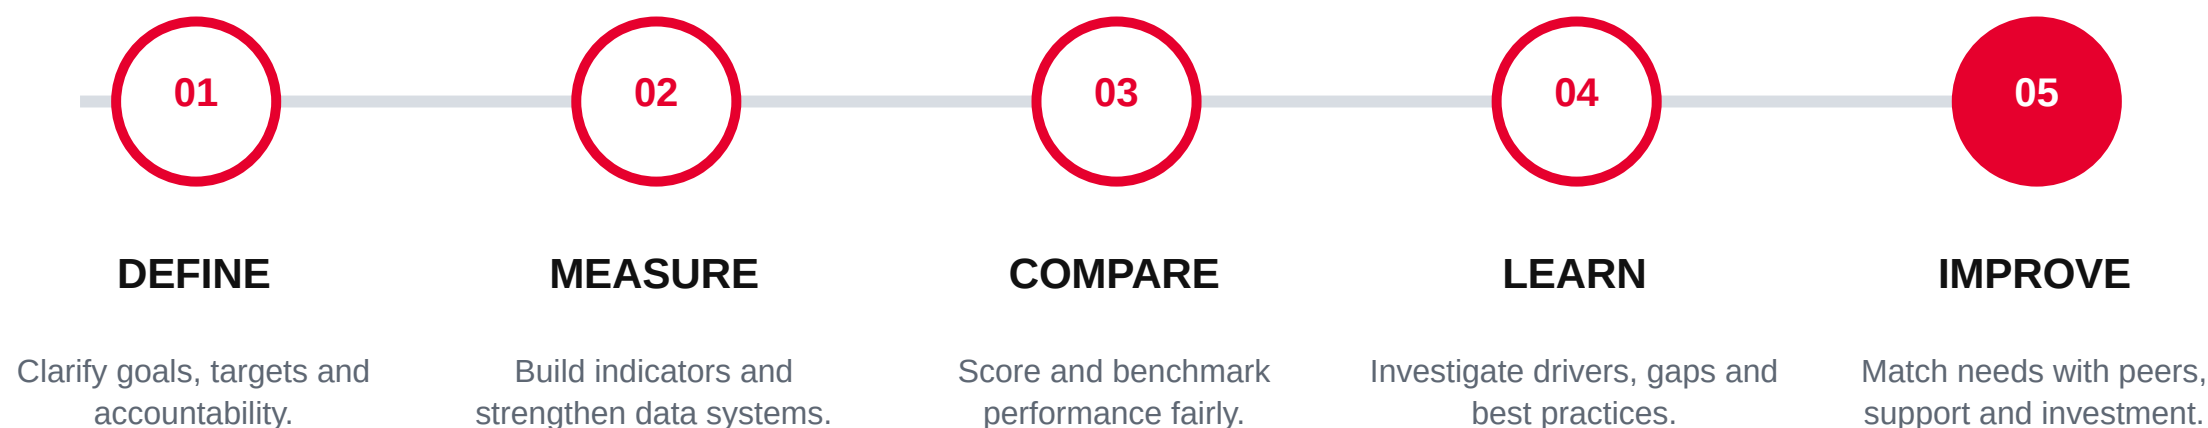

Rigorous evidence across the programme lifecycle

- Baseline surveys establish credible starting conditions and targets.
- Endline surveys measure change, achievement and sustainability.
- Impact assessments examine contribution, outcomes and wider effects.
- External evaluations provide impartial findings and actionable recommendations.

Mixed methods • participatory inquiry • data-quality assurance • clear recommendations for decision-makers

Benchmarking becomes valuable when it leads to improvement

PSCOPE combines measurement with learning: identifying best-in-class performance, understanding the causes of gaps and translating lessons into practical support.

The objective is not a ranking alone. It is a structured pathway from evidence to peer learning and better performance.

Expertise shaped by Africa's continental reporting systems

PSCOPE's lead expertise draws on the design of systems used to report government performance to the highest political level.

AFRICA AGRICULTURE TRANSFORMATION SCORECARD

A country performance tool for the CAADP Biennial Review, designed to make progress transparent and support accountability for agricultural transformation.

WATER & SANITATION REPORTING

Earlier AU-level experience also included introducing a country-scorecard approach that contributed to the Water and Sanitation Sector Monitoring and Reporting System (WASSMO).

These references describe the foundational expertise of PSCOPE's lead expert; they are not presented as contracts awarded to PSCOPE Africa.

One integrated platform turns institutional data into performance

WEB-BASED PERFORMANCE SYSTEMS

FARA's MEL application connects the full management cycle

- Plans and budgets aligned with programme results.
- Monitoring data converted into timely reports and evidence.
- Staff time and results-based performance managed online.
- Partner institutions learn, report and deliver jointly.

Initiated and coordinated by Eng. Anselme Vodounhessi at FARA since 2018 • mel-caadpxp4.faraafrica.org

Performance systems adapted to Africa's development priorities

PSCOPE brings a common discipline — clear goals, credible evidence and structured learning — across diverse sectors and institutional levels.

01 AGRICULTURE & RURAL DEVELOPMENT

Results frameworks, scorecards, programme evaluation and rural infrastructure advisory.

02 WATER, SANITATION & RESOURCES

Sector monitoring, accountability frameworks and infrastructure advisory.

03 ENERGY & ENVIRONMENT

Performance architecture for sustainable programmes and investments.

04 PUBLIC MANAGEMENT

Institutional assessment, governance, change management and collective leadership.

For governments • continental and regional institutions • development partners • foundations • public and private organisations

Build a performance culture — not just another reporting system.

LEADERSHIP

Ms. Melika Sthella Kemi Vodounhessi
Executive Director

Eng. Anselme Vodounhessi
Lead Expert

Leader of Performance Management and Evaluation in Africa

**Plan. Measure.
Learn. Improve.**
